National Children's Dental Health Month

Did you know that there is a vaccine that helps protect you against a virus that causes mouth cancer?

Talk with your dental or medical provider about how to protect you and your family against the human papilloma virus (HPV). HPV vaccination is recommended for youth 11-12 years of age, but it can be given to children starting at age 9.

A vaccine to help prevent cancer

For a healthy mouth, remember to brush twice a day, eat healthy foods, and see your dentist at least once a year.
